

Simple Bricks

Cut fabric into rectangles - 4 1/2" x 10 1/2"

You can use 3 or 4 fabrics or make it "scrappy" with as many as you'd like. You can set the bricks randomly, or set them so they make a cascading pattern.

Sew into columns, with a "half brick" at the end of each alternating column. (**NOTE:** This "half brick" will measure 4 1/2" x 5 1/2".)

A quilt made with 7 columns with 4 full bricks in the first column will measure 28" wide by 40" long.
